

ANGEL RUIZ

Systems & Computing Engineering Student | Software & AI Engineer

Bogotá, Colombia | angeldavidruiz2@gmail.com | [Portfolio: angeldavidruizb.github.io](https://portfolio.angeldavidruizb.github.io) | [LinkedIn: angel-ruiz-96314a192](https://www.linkedin.com/in/angel-ruiz-96314a192) | [GitHub: AngelDavidRuizB](https://github.com/AngelDavidRuizB)

PROFESSIONAL SUMMARY

Systems and Computing Engineering student at Universidad Nacional de Colombia with hands-on experience in full-stack software development, AI integrations (LLMs, PyTorch), and automated data pipelines. Bilingual (English Proficient Level / Spanish Native) with a proven track record of engineering scalable platforms, workflow automations, and web scraping systems.

EDUCATION

Universidad Nacional de Colombia

February 2023 – December 2027 | Bogotá, Colombia

Bachelor of Science in Systems and Computing Engineering

WORK EXPERIENCE

Unidad de Informática FCE - UIFCE

September 2025 – Present | Bogotá, Colombia

Junior Software Development Assistant

- Spearheaded software development initiatives focused on resilient data collection pipelines and automated web scraping systems.
- Designed and implemented enterprise automated workflows utilizing n8n to streamline departmental business processes and reduce manual intervention.
- Designed and developed software solutions for massive use and institutional distribution across the university community.

TECHNICAL PROJECTS

Aleman Lerne

July 2026 – Present

A comprehensive language-learning application engineered to master German from beginner to advanced levels, emphasizing complex grammar, vocabulary acquisition, and syntax rules.

- Integrated an AI-powered conversational assistant to guide learners through dynamic real-time Q&A, syntax validation, and personalized tutoring.
- **Technologies:** Claude Code, LLM APIs, AI Software Development.

Cogni Grow

July 2026 – Present

An AI-driven healthcare and educational platform designed to support children and adolescents facing attention and learning challenges.

- Engineered for underserved families lacking access to specialized clinical care using a collaborative care model that delivers automated clinical insights to therapists and educators.
- **Technologies:** Artificial Intelligence, Full-Stack Development.

FCE Digital Badges Platform

February 2026 – May 2026

Academic credentialing platform built to issue, manage, and verify digital badges for university students upon course completion (in partnership with UIFCE).

- Implemented a robust Role-Based Access Control (RBAC) architecture handling administrative, coordinator, and student workflows (CRUD operations and user management).
- Integrated LinkedIn API to allow one-click digital badge issuance and professional profile sharing.
- **Technologies:** Claude Code, Front-End Development, REST APIs, LinkedIn API.

LinkedIn Web Scraper & Analytics Tool

October 2025 – January 2026

Automated market intelligence tool that identifies in-demand technologies and soft skills based on role and geographic parameters.

- Engineered PowerShell automation scripts to orchestrate parameterized batch runs across diverse search iterations in a single execution.
- **Technologies:** Python, Web Scraping (BeautifulSoup, Selenium), PowerShell.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, C, SQL, PowerShell, Bash

Frameworks & Libraries: React, Next.js, Node.js, PyTorch, Pandas, NumPy, Three.js

Tools & Platforms: Git, GitHub, n8n, Claude API, Linux, POSIX, RESTful APIs, Web Scraping

Core Competencies: Software Development Life Cycle (SDLC), RBAC Architecture, Prompt Engineering, Process Automation

CERTIFICATIONS

- **Applied Data Science with Python - Level 2** – IBM
- **Introduction to Deep Learning with PyTorch** – DataCamp
- **HCIA-AI V3.5 Course** – Huawei
- **Python 101 for Data Science** – Cognitive Class
- **Data Visualization with Python** – Cognitive Class
- **Data Analysis with Python** – Cognitive Class
- **Using Python to Access Web Data** – University of Michigan
- **Data Analysis using Excel Tools** – Universidad Nacional de Colombia

LANGUAGES

- **English:** C2 Proficient (EF SET Score: 72/100)
- **Spanish:** Native
- **German:** A2
